## **Commercial Building Demolition Requirements**

### Asbestos Abatement and Demolition/Renovation Notification Form

*Please provide copy of notification for Borough records.*

### Electrical Service

*Verify the termination of any/all electrical service (if applicable).*

### Gas Service

*Verify the termination of any/all gas service (if applicable).*

### Water

*When disconnecting the municipal water service, (to eliminate the possibility of system damage) prior to digging, please cut supply line on the structure side of the curb box leaving not less than 12" to enable future service.(any additional information can be obtained by the Danville Borough Municipal water plant at 570-275-1070.*

### Sewer

*When disconnecting waste service please cut and cap lateral with approved method. Please mark the location of disconnect and call the Municipal Waste Water Plant at 570-275-2731 to verify capping and log termination location.*

**Once demolition is complete and lot is graded, final release from the Borough can be obtained.**

**Inspections can be scheduled by telephone or fax with a 24 -48 hour notification.**
